

## CONSPIRE 2017 Chant Workshop with Cliff Berrien

ReSounding Joy is a contemplative practice dedicated to developing cultural dexterity by providing an opportunity to listen to and participate in music from the world's traditions. As a practice, ReSounding Joy encourages you to explore music from traditions different from your own as well as deepens your appreciation of your own tradition by opening to music from other faiths and cultures.

The follow songs were part of the CONSPIRE 2017 conference:
